

Morgan O'Driscoll Photography

AUTUMN 2011

EDITORIAL

The past 3 months since our last newsletter has brought about a varied mix of photography commissions and briefs ranging from a lovely warm autumn day spent up in a corn field near Fountains Abbey shooting fashion for TB Ramsden, through to a bitterly cold and windy day at Croft Racing Circuit where we were capturing the latest range of trucks for Whitkirk Waste. Both days highlighted for various reasons the technical and creative challenges we come across to get the best possible results for our clients. One commission however which came out of the blue turned out to be a very different challenge for very different reasons. We received a call from Particular Design and Print to cover the funeral of the late Sir Jimmy Savile for his family. This included 2 days photography in Leeds and a day up in Scarborough documenting the scenes as they unfolded with family and friends. It was an unusual but very rewarding experience where we got a real insight through the family and friends we spoke to of one of life's true legends and of the huge contribution he gave to so many people. It was a privilege and an honour to be involved and something we will never forget.
