SUMMER 2011

Everhot Cooker photographed outside our studio for TN Cook Ltd.

EDITORIAL

The holiday season may be here but we’re still keeping ourselves busy putting together the latest copy of our newsletter for you. Wherever you might happen to be at the moment we hope that you’re having a good time and it’s the perfect opportunity to see the latest images we have gathered together for you. In this edition we’ve delved into the archives to show some of our past work and achievements. This sprung to mind whilst late one evening scanning through the tv channels up pops a program featuring this years IIFA awards held in Toronto. It caught my eye as 4 years ago we were awarded the role of official photographers for the awards also known as the Bollywood ‘Oscars’ held here in Yorkshire. As well as covering the awards ceremony in Sheffield we also photographed press conferences and PR events in London, Leeds and Bradford allowing us access to the most successful and famous talent to come out of India. It proved to be an eye opener in many ways but was extremely fulfilling in that it allowed a lifelong ambition to be achieved in photographing a film studio on location in Mumbai, India. The resulting images formed part of an exhibition held at the National Media Museum in 2007.

# Behind the scenes...

The Shoot: On location in London, Leeds, Bradford and Sheffield covering press conferences and PR events prior to the IIFA awards ceremony.

The brief: To provide a range of images documenting the stars of Indian cinema promoting the annual IIFA awards. The resulting images were wired out to press agencies in the UK and then used globally within the newspaper and media industry.

Stephen Nelson

A massive thanks goes to all the those named here without whom the whole project would not have happened.  
It really was a team effort!
